Contrabass Chimes

Stunning in both their towering appearance and low resonant sound, these seven chimes are pitched one octave below middle C. The chimes range in height from seven to nine feet. They are made of four-inch diameter, heavy duty anodized tube. They can be installed in a variety of layouts including a horseshoe shape to experience a “surround sound” effect. Additional chimes and mallet poles may be purchased separately.

The color is Silver. The Chimes are pitched one octave below middle C to create a deep note that resonates like a gong, long after the fundamental sound has ceased. Please note the photos of our instruments may show slight variations of components.

- **Multigenerational**
- **Interactive Play**
- **Durable**
- **Sculptural**
- **Perfectly Tuned**
- **No Wrong Notes**
- **All Abilities, All Ages**
- **Everyone Can Play!**
